

TECHNICAL PARAMETERS, USE DATA TO SPEAK

A professional audio manufacturer from 12 years **S.M.S.L**

- * When connecting the speaker, it should be divided into positive and negative poles. The positive pole (+) is the red cable , and the negative pole (-) is the black cable
- ** Please make sure that the grounding wire of your home socket is working properly

Inputs	USB , Bluetooth , RCA
THD+N	0.005%
SNR	103dB
Channel separation	88dB
Output Power	80Wx2(4Ω) / 40Wx2(8Ω)
Input sensitivity/input impedance	180mV / 22kΩ
Power Consumption	35W(Normal Volume)
Size	150x43x165mm / 5.09x1.69x6.45in(WxHxD)
Weight.....	0.6 kg / 1.32lbs
